Dear Paul,

We did get to xerox the COUP add today. I hope Lil will be able to colate it tomorrow and that I can get to the P.O. with it Saturday. This is coming up then and a reporter from the Wash post (covered the Ray trial), so I may be kept home. However, as soon as I can get to insure it I'll send it.

Should Mary Werrell want a copy, she will write you, - hope you'll make one for her (also for Bernabe if he asks).

Posting the suggestions you made took me until midnight last night, so I'm behind in correspondence. I'll write about other things when I catch up.

You may be amused about one of them. Without question, I asked Lil to type "largesse" for me, for I thought I'd made one of my many typos and she'd duplicated it. She did (we use her machine only on the books) and returned it with a quotation from the P-H unabridged. Without the final "e" is now preferred.

Lil is indexing the addition. She now has over 3,000 cards hardy into the add.

No word from Gary in almost two weeks. It disturbs me. If I've no word by Saturday I'll phone him over the weekend. He does not have the most dependable car. My last word was on the eve of his leaving to go somewhere to make a speech.

Best to everyone,
